DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5, 8-16, and 18-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over the November 1994 Chemical Engineering article by Nelson and Brown, "Adapting Ozonation for Soil and Groundwater Cleanup" in view of US 5663475 (Elgal) and US 5130053 (Feasey) as set forth in the previous office action.

Response to Arguments

Applicant's arguments filed 11/20/2006 have been fully considered but they are not persuasive.

In response to the applicants argument that the Nelson-Brown does not teach or suggest administering the peroxide before administering the ozone. It appears the Nelson clearly teaches in situ ozonation with hydrogen peroxide and that administering the hydrogen peroxide before administering the ozone would not yield unexpected results.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP §.706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
